SKA Rating Good Practice Measure compliance

Environmental Commitment

Finesse Office Systems is committed to ensuring best practice throughout the life of its products to ensuring minimum impact upon the environment globally. As a business we have taken the decision to focus on all our products to achieve the highest performance, long term value and sustainability demanded today.

Through better design, awareness of the environment when sourcing of our materials and better use of materials through design and manufacturing techniques, we are able to provide our clients with solutions that help them achieve global environmental standards.

Finesse Office Systems supporting SKA

Finesse Office Systems works closely with the wider interiors industry to ensure best practice is achieved for both SKA Offices and Retail.

Compliance to Good Practice Measures

Our interior products contribute to many Good Practice Measures across Energy, Materials, Wellbeing and Waste. Many of these measures we contribute to your building

Though we contribute to these overall 'project' good measures please find details on the following pages how our products comply to individual good practice measures for the following Material assessments for both

SKA Offices and SKA Retail:

MO8 - Partitions

M09 – Glazed Partitions

SKA Rating Good Practice Measure compliance
